

## Godliness - 10/14/18

### OVERVIEW

When we hear the word godliness, many of us automatically feel like a failure. Living life in a way that honors God while surrounded by a world that doesn't can seem like an unobtainable standard. But before we give up or consider it impossible, we must first understand what it means and how it can transform our lives. The process of striving to be more like God and moving away from worldly living has a compounding effect. With each passing day, we become more and more like God in our thoughts, actions, and desires.

Scripture: 2 Peter 1:3-11

### APPLICATION

1. What is something in yourself that you are disappointed in?
2. Godliness — to be like God. Make a list of some of the attributes of God.
3. Now look at that list. Do you really believe you can be “like” God? What is keeping you from believing you can live a life of godliness?
4. What is a place (a behavior) in your life that looks worldly and the most unlike God?
5. What is your take away?
6. HOMEWORK: Spend 15 minutes a day memorizing 2 Peter 1:3-11. Take your answer from number 4 (your worldly behavior) and search five scripture verses that apply to helping you be more like God (example: Google search “Scripture verses on anger”).
